

Recurrent – Bundle of Safety Trainings

1/3

According to EASA regulations, every flight crew member has to prove and maintain their flight safety skills annually. Our Recurrent Safety Training bundles provides all necessary units to meet those requirements. After refreshing the theoretical knowledge, all participants will deepen their gained knowledge in practical exercises on our business jet mock-up.

Every part of this bundle is build up on each other and is tailored to the general aviation. In that way the participant will get a good overview about all safety topics and its importance. This safety course bundle saves time and money. On top of that it gives the participant the opportunity to finesse their safety skills through our realistic on - board emergency scenarios.

Place	Fly-Exclusive Training Centre Berlin-Schönefeld
Length of service	5 days
